

Powerful Features Extend Solomon Payroll Functionality

Enhanced Functionality Automates Difficult Payroll Tasks

Document Attachment and Inquiry Tools Eliminate Redundant Work and Files

Easy of Use Features Speed and Simplify Payroll Processing

Silver Brook Payroll Extensions

Silver Brook Systems' Payroll Extensions module enhances Microsoft Dynamics SL's (Solomon) Payroll and Advanced Payroll modules with enhanced functionality, vertical market solutions, document attachments, inquiry tools, and ease of use features. Payroll processing will be faster, easier and better documented with Silver Brook Payroll Extensions for Microsoft Dynamics SL.

Functionality Improvements

Employee Receivables manages periodic payments due from employees and maintains detailed transaction logs for each receivable item.

Arrearage Management creates arrearages for unpaid employees, restricts arrearage recovery to maximum amounts per deduction per pay period.

Allowance Management creates earnings for uniform allowances, meal pay, cash payments in lieu of insurance, hardship duty, etc.

Automatic Deduction Exemption automatically exempts employees from deductions unless the person is specifically assigned to the deduction.

Complex Deduction Calculator uses Payroll Extensions' scripting language to automatically calculate the most complex deductions.

Matching Contribution Filter enforces limits on the employer's matching contribution to 401(k), 403(b) and similar plans.

Benefit Management calculates vacation accruals based on a benefit eligibility date and restricts vacation accrual to persons working a minimum number of hours per week,

Suspend Deductions removes designated deductions from payroll calculation runs such as when insurance premiums are deducted only four weeks of a five week month or when a year includes 53 pay periods.

Zero Hours Reporting allows easy identification of missing time cards.

Tip Credit Processing computes adjusted hourly rates and overtime rates based on reported tips and each work location's minimum wage and tip credit rules.

Employee Receivables

Employee Receivables are easily managed with Silver Brook Payroll Extensions. Simply assign a payroll deduction id, describe the item, enter the initial amount, and the payment amount per paycheck.

Document Attachments

Attach salary change notices, W4s, insurance change requests and other documents directly to employees, work locations and other records with this special version of QuickAttach™ configured for Dynamics SL Payroll.

Query and Export Tools

Payroll Extensions includes custom inquiry tools such as Pay Stub Inquiry as well as a special version of Silver Brook's FlexQuery™ tool. These tools provide easy, secure access to information, drill-down features to Dynamics SL Payroll and Crystal Reports, and one-click export to Microsoft Excel®.

Ease of Use Features

Payroll Extensions includes a variety of small but useful customizations to simplify payroll processing. Choose the features to implement including improved column headings, valid department lists, tool tips, and other useful items.
